About Society

“Education is a progressive discovery of our ignorance”, a concept echoed loudly off late by print and electronic media.

This has been conceived and achieved by KLE Society, Belagavi over a century ago, when our ‘Saptharishis’ laid the foundation stone of the first Anglo-Indian school in the year 1916.

The legacy of selfless service and sacrifice left behind by our ‘Saptharishis’ is pursued sincerely by the management to this day.

Under the unparalleled leadership of Dr.Prabhakar Kore, KLE society has reached enviable heights. His spectacular chairmanship beyond 30 years along with the collective efforts of his team has shaped KLE into an international educational destination.

About SNC

KLE S Nijalingappa College, established in the year 1963, has earned significant laurels for its services of more than half a century. Prominent among these are the rare distinction of having been re-accredited at ‘A+’ grade with 3.53 CGPA by NAAC. UGC has recognised KLE SNC as “College with Potential for Excellence (CPE)”.

The college has always provided a platform to students with diverse needs for the evolving higher educational scenario at global level. Credit of having organised consistent and orderly sponsored seminars, conferences and workshops is an added feather to our crown.

ABOUT BCA

BCA @ KLE started in the year 2000 with a vision to make students employable in the IT industry wherein both human values and technology are well blended. “Smart classes and close mentoring relationships between students and faculty” is more than a tagline at KLE BCA; it’s a long-standing hallmark and a true point of distinction. The course empowers the students by preparing them to adapt, adhere, apply and achieve balance and excellence in their career; thereby empowering them to add value to industry and society at large.

ABOUT

ZigHive

In the era of digitalization and automation, ‘ZigHive – Techno Conclave 2020’ brings in the amalgamation of new technologies. It provides a platform for students to learn about new trends in the industry and to spectate them in the exhibition organized.

ZigHive will bring together key speakers in the IT hub, Bangalore for a day long discussion about the latest technologies and trends in the current IT market. It also offers an excellent platform for understanding the value proposition of IoT, AI and technology synergy with space and their applications that fuel growth and productivity in Indian market. The exhibition showcases exhibits on IoT and other technological platforms.

Guidelines for Project Exhibits

1. Individual or two in a group
2. Students are requested to get their own laptops and other required equipment for the exhibition
3. Projects can be on any platform
4. Students will be required to present their project to the judges in a given span of 5 + 2 minutes
5. ID cards compulsory
6. Registration fee is Rs. 300
7. Participation certificates will be provided
8. The last date for entries : 24.02.2020
