Teachers use ICT enabled tools for effective teaching-learning process

College facilitates the usage of the ICT enabled tools in both theory and experiential classes. Library, language and Computer labs, seminar halls, auditoriums, A-V lab, classrooms and laboratories are provided with projectors, smart board, digital podium for hassle-free and most reliable effective teaching and learning. Advance software like infibnet, Lib-info and E-lib are used by both teachers and students for updated references. All the teachers are well trained to use the ICT tools, software, virtual platforms like Zoom platform, Google meet, Teachmint, Cisco WebEx, Great Learning App and YouTube videos. Students present their seminars, demonstrations, assignments and project output through PPTs. The research findings analyzed by using SPSS, ANOVA, MONCOVA, R-Models and FOSS Software. In nCovid-19 pandemic situation, the college has used a very strong communicative network by using encrypted software Cisco WebEx and Microsoft teams. Through this social media teaching, learning and evaluation were carried out very effectively and avoided the students' academic loss. Social platforms were used to provide study materials, soft copies of references and question banks for reference. Test, exams, result declarations, e-certificates of workshops, seminars has been provided through ICT networks. Manuscripts and presentations of the faculty and students are evaluated by using Plagiarism software.

REPORT ON ICT –ENABLED TOOLS

Every classroom is ICT-enabled, fostering an interactive and engaging teaching experience. This infusion of technology allows our educators to craft lessons that resonate with contemporary learners, incorporating multimedia, interactive presentations, and collaborative platforms that stimulate active participation and critical thinking.

Have modern computer labs equipped with cutting-edge technology. These labs serve as the hub for hands-on learning experiences, enabling students to apply theoretical concepts in a tangible, real-world context. Here, they can experiment, explore, and innovate under the guidance of expert faculty members, gaining invaluable skills and insights that are essential for success in today's technologically driven society.

To ensure that our students have unfettered access to a vast reservoir of knowledge, we have meticulously deployed a robust Wi-Fi network that blankets every floor of our department. This not only facilitates seamless internet connectivity but also empowers students to leverage a plethora of online resources, educational platforms, and research materials. It transforms the learning experience, allowing for quick access to information, collaboration with peers, and engagement with diverse perspectives from around the world.

Have advanced speakers in two classrooms. These audio systems significantly enhance the quality of audiovisual content, providing students with a more immersive and enriching learning environment. Whether it's educational videos, interactive presentations, or live demonstrations, the speakers ensure that students grasp concepts with clarity and precision, further solidifying their understanding and retention of the subject matter.

Have Global Distribution System (GDS) and ticketing software, offers students a hands-on experience with the technologies and processes utilized in various sectors. This exposure equips them with practical skills and insights, aligning them with the demands of modern industries and preparing them for successful and impactful careers.

DEPARTMENT OF BBA

Teachers use ICT enabled tools for effective teaching learning process.

2022-2023

Department of BBA follows ICT enabled teaching in addition to the traditional classroom education. All the classrooms and labs are ICT enabled with projectors installed and the department is enabled with high speed wi-fi connection.

ICT was utilized in the following ways:

- The faculty members used Google meet/Zoom for lecture delivery. Also used many interactive methods for effective teaching such as PPT with animations, video clippings, Use of online resources from NPTEL, Coursera, youtube links etc.
- WhatsApp group used as platforms to communicate, make announcements, address queries, and share information.
- Students were taught accounting software Tally ERP 9.0 using the Tally software.
- The research journals and e-books are available on online library to our faculty and students.
- Optra software is used to keep a track of student's
 - a) Attendance
 - b) Internal Marks
- Optra Software is also used to send bulk messages to the parents and students. Enables in building a academic rapport between Institution and parents through posting the timetable, attendance and communicating internal marks.
- Usage of google forms for taking the consent of students on varied fields in conducting certificate course, workshop, seminar, industrial visit so on & so forth.

<https://www.optra-india.com/>

<https://optra-india.com/>

- Optimum utilization of social media platforms like, Website, Facebook, Instagram & Whatsapp: Posting the activities conducted in the department to keep the stakeholders updated. Value based posts are shared on social media, like awareness programmes: CSR activity, culture-based, human-rights related etc.
