Bachelor of Computer Applications
UI Path Certification Course 2020- 21

| Sl.No	Name of the Course	Date	No.of Students completed	Beneficiaries
1	UI Path Automation Cloud	16-4- 2021	331	I, II, III Year Students
2	UI Path security	21-4- 2021	209	II , III Year students
3	UI Path Processing Mining App One	29-04-2021	78	III Year Students
4	Debugging	2-5-2021	64	II Year Students

Report on "UIPath Automation Cloud"(UI Path) for I, II & III Year

CERTIFICATION DETAILS:

DATE : 16-4-2021

DURATION : 1 hour.

BENEFICIARIES : I, II & III year students

RESOURCE PERSON : Online Training by UI Path Trainees.

The department conducted online certification course from UI Path Academy known as "UI Automation Cloud" for I, II & III year students. The main objective of this certificate is to provide to

- ➢ Access an organization in Automation Cloud and create a new account

- ➢ Navigate each page of the user interface of Automation Cloud

- ➢ List the available services in Automation Cloud.

- ➢ Create Tenants, enable services and distribute licenses in Automation Cloud

- ➢ Invite users and configure groups in Automation Cloud

- ➢ Differentiate between the Automation Cloud Licensing the plans and describe how licenses are distributed.

Report on "UI Path Security "(UI Path) for II & III Year

CERTIFICATION DETAILS:

DATE : 21-04-2021

DURATION : 1.5 hours .

BENEFICIARIES : II & III year students

RESOURCE PERSON : Online Training by UI Path Trainees.

On 21st April 2021 department conducted online certification course from UI Path Academy known as "UiPath Security"for I ,II& III year students. This course presents the security features implemented in each Uipath component, as well as the best practices meant to ensure data and access protection. At the end of this course one will be able to recognize the potential security risks associated with Robotic Automation (RPA). And also understand the features implemented in each component of the UIPath solution to mitigate security risks.

We have these many modules such as UiPath Ecosystem, Security Challenges, Studio Security, and Robot Security. This course covers topics such as Product Architecture, Cloud Deployment, RPA Typical Risks,UiPath Security Features and Guidelines, Securing Automation Packages, Storing Credentials.

Diploma of Completion
