**YOUTH RED CROSS**

**AWARNESS ON EYE DONATION AND EYE SCREENING CAMP**

On 27<sup>th</sup> January 2021 **National Cadet Corps (NCC)**, **National Service Scheme (NSS)** & **Youth Red Cross Wing (YRC)** had organized one day Awareness on eye donation and eye screening camp in college campus to students and staff of the college.

A vision screening, also called an eye test, is a brief exam that looks for potential vision problems and eye disorders. Vision screenings are often done by primary care providers as part of a regular health check-up. Getting an *eye exam* is an important part of staying healthy. Get the right exam at the right time to ensure your vision lasts a lifetime.

The standard definition of normal visual acuity (20/20 or 6/6 vision) is the ability to resolve a spatial pattern separated by a visual angle. The visual ability of 20/20 and 6/6 are standardized for a "person of normal vision" at the specified distance.

In our camp importance of vision health was informed to the students and staff along with that importance of eye donation was also a main objective of our program. Even in the time of COVID pandemic total 238 members actively participated for eye screening test and in eye donation awareness program, with help of student's volunteers from NSS and YRC this program was successfully completed.

**OUTCOME/OUTPUT:** 60 Faculty and 178 Students received advantage from eye screening camp and awareness about eye donation.

Volunteers at Registration counter inviting the students and faculty in the campus
