**DEPARTMENT OF ZOOLOGY**

**FIELD VISIT - AROCHA ELEPHANT RESEARCH CENTER**

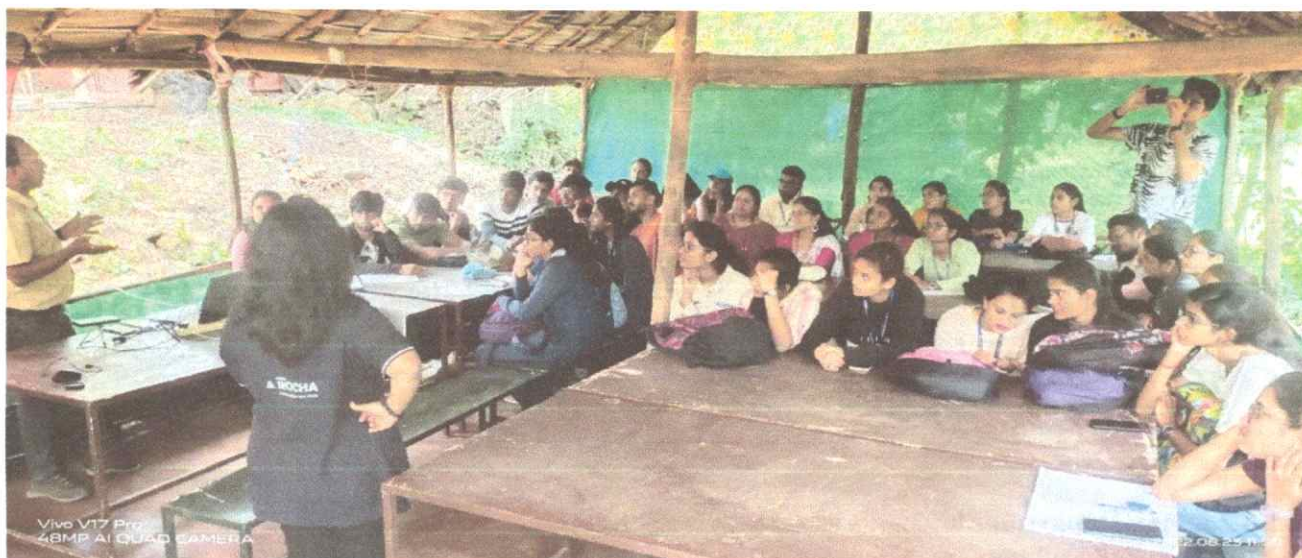

The faculty and students of III B.Sc and II Semester, visited A Rocha Elephant Research Center, Bannerghatta, National Park, Bengaluru. A Rocha is an Interdenominational Christian Organization which engages in scientific research community based conservation projects, environmental education and theological training. It was founded by Peter and Miranda Harris in 1983.

This center welcomes volunteers to learn and assist in the various ongoing activities at the organization.

During our visit Mr. Dilip A and Mr. Palani Satish welcomed us and Mr. Dilip A delivered a talk on research work which is going on that center and problems faced during work, Human-Elephant conflict. And also explained how they are identifying species and their footsteps. He took us into the forest and explained different species of plants and animals. Also taught about usage of camera during camera trapping. Finally students learnt about adjustment and fixing of camera to observe the behaviour of animals. After one week students got the video clippings of camera and observed the animal's activities.

Outcome – Students got knowledge about diversity of plants and animals and learnt usage and fixing of camera for trapping the animal's behaviour.

**Beneficiaries – 43 CBBt and II Semester students and two faculties.**

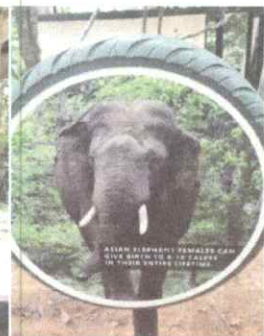

**Students attending seminar at A Rocha Center**

Observing different species of snakes and birds of A Rocha center.

Dilip A explaining different species of Elephants. Details of Human – Elephant conflict

Forest area of Rocha Center.

Camera adjustment and fixing by students

Students receiving certificates.
