DEPARTMENT OF ZOOLOGY

Department of Zoology had organized essay writing competition for UG students in view of WORLD AIDS DAY to spread awareness among youths about the sexually transmitted disease and also to bring attention to the HIV epidemic, endeavor to increase HIV awareness and knowledge, speak out against HIV stigma, and call for an increased response to move toward ending the HIV epidemics

The acquired immunodeficiency syndrome (AIDS) is a life-threatening condition caused by the human immunodeficiency virus (HIV). The HIV virus attacks the immune system of the patient and reduces its resistance to other diseases. Government and health officials, non-governmental organizations, and individuals around the world observe the day, often with education on AIDS prevention and control.

But most of the youths ignore the cause and most of them are unaware, so to test and create value based awareness essay writing was organized under the below theme:

**01. AIDS: Health & Social care**

**02. Problems in HIV Prevention among teenagers.**

These writings were emailed to our department email ID [zoodept.klesnc@gmail.com](mailto:zoodept.klesnc@gmail.com) in PDF format received 11 scripts from different subject background students; those were evaluated based on the language usage, subject/concept depth, way of awareness information and way of approach towards the AIDS pandemic.
